

Young Life Catalunya (Spain): JULY 2021. SAN DIEGO

What is Young Life USA Camp?

Young Life USA Camp is a 3½ week program offered by Young Life Catalunya (Spain) to teens from Catalunya, Spain. The program offers Spanish teens 3½ weeks in the United States, living with a family for 2½ weeks and a week at Woodleaf, a Young Life camp in California.

What's the main purpose?

The purpose of the program is to expose Spanish teens to the gospel of Jesus Christ in a very non-threatening way, by intentionally creating a Christian atmosphere with them. Our hope and prayer is that each Spanish teen would move in his or her individual journey to knowing Christ personally and becoming His true follower.

Why is this an opportunity for my family?

We see this program as an opportunity for Christians in America to open their homes to a teen from a foreign culture, so they might experience first-hand the amazing, unconditional love of Christ. This program **is an opportunity for "the mission field to come to you."**

Why are non-Christian families from Spain interested in a program like this?

We are excited about the potential impact this program is having on the ministry in Spain. English has become a language of great interest for most families in Spain. It is seen as the international language and is used in most multi-lingual settings in Europe. We feel God is using this interest in English as a bridge into Spanish hearts.

How many total students are coming?

15-25 Spanish teenagers (15-18 years old) will be traveling from Catalunya, Spain and Andorra to San Diego, **accompanied by 2-3 adult leaders.**

What are the dates?

- **The dates still need to be determined** but it will be around are **July 1- 26, 2021**
- Families would host one teen from approx. **1 week at the beginning of the trip and 10 days at the end of the trip**
- The student will be at YL Camp for approx. **10 days during mid-July** (including a 2-3 day group excursion to LA).

What are the goals of this program?

- To see teens draw closer to a personal faith, in becoming a true follower of Jesus Christ
- To expose teens to the Gospel in a non-threatening way, by intentionally creating a Christian atmosphere around them

- For the Spanish students to improve their English skills
- To have all participants live, learn, and respect the values and principles of a different culture (Spaniards and Americans alike)
- To develop long-term friendships between the Spanish student, American family, and other teens
- To experience a great adventure and have a lot of fun!

What are the requirements in order to be a host family?

In order of priority:

- To guarantee that at least the **mother or father will be at home** during the day with the student in order to provide him/her with the best experience
- To have **one teenager living in the home** so they can relate to one another and build a friendship. This is not mandatory but highly recommended.
- To **live relatively close to the rest of the host families** so transportation and weekly group activities will be easier to coordinate
- To be willing to **“adopt” the student as a part of the family** and keep developing this relationship during the year
- To understand and agree with the Young Life approach of ministry (see below, “How should I approach my student with the Gospel?”)

What are the host family responsibilities?

- **Food and housing-** Provide good food, a comfortable home, and bed
- **Transportation-** Families will need to provide transportation to a meeting point for activities and are welcome to stay and participate in all activities. Carpooling can be arranged with other host families.
- **Good care and a loving atmosphere-** Families will not need to entertain their student organizing multiple different activities. We would like you to involve the student in the normal family life. If your family goes out one night for dinner he or she would join you in this family activity. If your family goes bowling one afternoon, the Spanish student would also partake in this event. It is also possible to organize an activity with other host families and their students.
- **Laundry**
- **Communication with home-** Provide the possibility to make a collect call to Spain or use the internet to communicate with their family.

What will the program be during the student’s stay with the family?

- Picking the students up at the airport
- A welcome event with students, leaders, and families either the arrival day or the following day
- Organized activities* for the entire group will be offered 1-2 times per week for teens and host families’ teens
 - Possible organized activities: Surf activity at the beach, Community Service Project, water park, sports, tourism, shopping, etc.
- Intentionally engaging student in conversations to practice English
- Inclusion of Spanish teenager in host family’s normal summer activities. The idea of being “adopted” for the 2½ weeks.
- Students will attend a YL Camp during mid-July.
- Before or after camp, students will go on a 2-3 day group excursion to LA.
- We will try to organize some activities with YL Escondido or any other church youth group interested as well
- Farewell party with students, leaders, and families during the last week

* The activities will depend on the distance between host family locations and the required time of transportation.

What are the expenses involved?

- We would request the host families to cover all the costs related with having a student in their home for 2 ½ weeks. **Basically food and housing.**
- All the activities organized as a group will be covered by each student (Activity, program, fast food restaurant, etc)
- If the family would like to do a family activity (going to a restaurant, the movies, etc.) with his/her student, the family would need to cover it. **Please understand that you don't have to "entertain" your student** providing several activities during the week. The ideal situation would be that that student be a part of normal family life. Of course it is possible to take him/her to a place and/or activity that you think he/she will enjoy. This is possible to be organized with other host families and their students.
- The closer we have the host families the easier it will be to organize group activities during the week that would not require any cost for the family (since it's a group activity).

When I would need to make a final decision to be a host family?

We would like to have a commitment no later than **FEBRUARY 25th 2021*** (* Final dates still need to be determined).

Will we know the student before he/she comes?

Each student will be required to write you a letter with some actual pictures sharing about about himself/herself. We also encourage each student to contact you by email or Facebook before they stay with you. It will be an opportunity for his/her parents to also get to know you and start a conversation.

We will also have a personal interview with those students that we consider that we would need extra information. All that information will be sent to each of the host families prior to the student's arrival.

We will also require each host family to send us a family picture, a welcome letter to the student and their personal information to contact you (phone number, cell phone, address, email, etc.).

How should I approach my student with the Gospel?

One of the differences between this program and the way YL works in the States and Spain is that, **most of these kids might come to this program having had no previous relationship with their YL Leaders or exposure to the Gospel at all.** You would need to aware of this situation in order to know how to approach your student with the Gospel. That's why this information is very important for you to know and understand.

As YL staff in Catalunya, we have been called by God to go to places in Catalunya where kids are, to love them regardless of their reaction to the gospel or to us, to earn the right to speak into their lives, and to spend time getting to know Spanish teens. **This 3 ½ weeklong "USA camp" is a way for these teens to experience Christian community without pressure, simply living life in a normal daily routine with a family who loves the Lord and loves them.**

In Catalunya we have the privilege of seeing the Holy Spirit cultivate the soil of a teen's heart, plant seeds, water and fertilize, with the hope that one day the Lord will harvest fruit for His kingdom. **These 3½ weeks in the States can be a part of this cultivating process, which YL staff and volunteers in Catalunya will follow-up on in future months.**

As you can see, this program has been designed for a **long-term relationship**. We hope you will connect with your student and develop a relationship that will last far beyond the 2½ weeks that you spend with them this July. Young Life is a ministry built upon relationships. It began in 1940 based on the principle that leaders need to "earn the right to be heard" through developing a relationship of mutual trust and respect with students. **Please understand that this is not a 2½ week project where you are expected to "convert" your student or convince him/her about spiritual issues.** We need to be careful not to be accused by their parents of proselytizing, which would risk ruining the entire ministry we are doing with these students in Spain. As a family, please pray a lot, and live out your faith with the expectation that the Holy Spirit will work through the witness of

your loving and godly lifestyle in the lives of these students. Also that God would bring about spiritual conversations with the student in His timing.

A wonderful book to read in preparation for your time as a host family is Tim Downs' book, *Finding Common Ground. How to Communicate with Those Outside the Christian Community... While We Still Can.*

Can I take my host student to church?

We think it would be a great idea for you to take the student to church. However we would like you to understand the importance of establishing a relationship with your student before doing so. Just as Young Life "earns the right to be heard", we'd like the families to earn that right as well. That will aid in the student feeling comfortable and having more trust.

We understand that relationship takes time. Therefore, **we strongly suggest waiting until the third weekend to take the student to church.** This will be after the camp where they will hear the Gospel. Please understand that for most of these non-Christian teens it will be the first time they attend an Evangelical church. There are still people in Spain who consider us a sect.

How can I help my host student improve his/her English level?

The students will be requested to engage in conversation with their hosts each day to practice their English. We will give them different topics to discuss with you concerning the American culture, your own family, etc. This will be a good opportunity for you to share about your spiritual values and faith with them in a non-threatening or confronting way. When we (the leaders) get together with the students, we will ask them about their conversations.

Is there going to be any training?

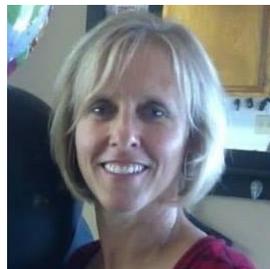

Families will be asked to attend a training/orientation session. This session will help participating host families to understand some of the cultural differences between Catalunya, Spain and USA. Learning how to relate to teens from a different background and culture is of vital importance for the success of the YL USA Camp program.

This training session will be held in May in the San Diego area. This meeting is to explain the program and discuss cultural experiences. In this session, the group of host families will also brainstorm a list of activities to do with the students. Follow-up communication will be via internet with Jonathan Banegas and David Lara from Spain or our local coordinators in San Diego Mary Schuhler and Scott Smith.
